

2013

University of Otago
Winter Lecture Series

Real-world benefits from Otago's leading research centres

Come along to these free North Island public lectures and listen to leading Otago thinkers on topics that impact on us all.

Wednesday 14 August 2013 – 6pm
Associate Professor Colin Gavaghan

Director of Emerging Technologies,
Faculty of Law, Division of Humanities
Saviour Siblings & Criminal Genes: Law and Technology in the 21st Century
Associate Professor Gavaghan heads the newly-established Centre for Law and Policy in Emerging Technologies, the only New Zealand-based research centre that will examine the legal, ethical and policy issues around new technologies.

Wednesday 21 August 2013 – 6pm
Dr Janet Stephenson

Director, Centre for Sustainability,
Division of Humanities
What's our energy culture?
Dr Stephenson explores how we get locked in to habitual patterns of energy use, what helps us break out, and why it matters.

Wednesday 28 August 2013 – 6pm
Dr Jonathan Broadbent

Senior Lecturer, Department of Oral Rehabilitation, Sir John Walsh Research Institute
Teeth and the rest of you
Insights from Otago's unique Dunedin Study about how early life events affect oral health, and the links to our general health.

Wednesday 4 September 2013 – 6pm
Dual Lecture

Professor Janet Hoek

Department of Marketing,
Division of Commerce, with,

Professor Richard Edwards

Head of Department of Public Health,
University of Otago, Wellington
Clearing the air – towards a smoke-free nation
Professors Edwards and Hoek discuss how the ASPIRE2025 group's work will help achieve the government's goal of becoming a smoke-free nation by 2025.

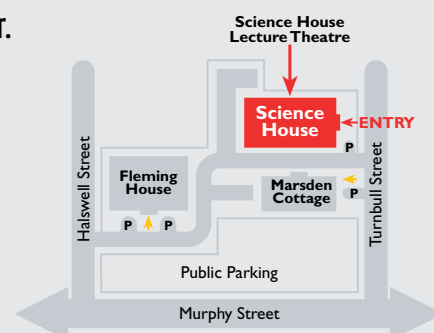

DUAL LECTURE

Each lecture followed by refreshments and an opportunity to meet the presenter.
